

VPN

VPN stands for Virtual Private Network. It enables a user to circumvent the Wilbur School District network and by-pass our state mandated filters.

Using a VPN on your school-issued iPad puts the district at risk for non-compliance. Therefore it is against the Wilbur School District user agreement to access any VPN on your device. For more information see: The Children's Internet Protection Act (CIPA).

Please remove the VPN from your school iPad immediately. Failure to do so will result in detention and removal of all virtual networks from your device. In addition, all programs, apps, and web history will be subject to inspection.
